

Commitment to Environmentally Sustainable Development

Intanova acknowledges and accepts its obligation to preserve and protect the environment. Intanova, through the commitment and involvement of management, its employees and associates is dedicated to the provision of built outcomes that are environmentally responsible to our clients, the workforce and the community.

Our day to day business activities are designed to be complimentary with the broader community's expectations of preserving and protecting our resources and are demonstrated by the following:

- ▶ All operations will be conducted in accordance with the relevant legislation.
- ▶ Responsibilities for environmental management will be clearly defined and reviewed periodically by management as part of our internal quality reviews.
- ▶ Off-cuts produced during the manufacturing and installation process are actively recycled and or reused.
- ▶ Intanova employees and associates are actively involved within the property and construction industry seeking new products and ideas that can be incorporated into our built outcomes and
- ▶ Initiatives and achievements will be communicated to our clients, the workforce and the community.
